## *Preschool Show Prep*

You want the best preschool program and so does Brian.

- Brian's programs are best presented in a room with OPEN SPACE for kids to be seated on the floor.
- Please DO NOT put the toddlers in the front row. Toddlers need to be seated next to older kids so that they can see them laughing and having a great time. (Trust us....this will make the show WAY BETTER!) We recommend toddlers be seated on the sides and near and/or near an exit if need be.
- Brian needs space approximately 10' wide by 6' deep.
- Please allow Brian to set-up privately (if possible) so that the show can be set-up quickly.
- Please remove or cover up and distractions, such as toys, computers, and more from the performance area.
- Encourage your teachers to participate along with the kids, as this will help deliver the best show possible and help make memories for the kids that will last a LIFETIME.
